

Abacus Method Of Learning Mathematics

Abacus Method Of Learning Mathematics

The abacus (plural abaci or abacuses), also called a counting frame, is a calculating tool that was in use in Europe, China and Russia, centuries before the adoption of the written Hindu-Arabic numeral system. The exact origin of the abacus is still unknown. Today, abacuses are often constructed as a bamboo frame with beads sliding on wires, but originally they were beans or stones moved in ...

Mathematics in China emerged independently by the 11th century BC. The Chinese independently developed number sets including very large and negative numbers, decimals, a place value decimal system, a binary system, algebra, geometry, and trigonometry.. In the Han Dynasty, the Chinese made substantial progress on root extraction and linear algebra. The major texts from the period,The Nine ...
