Advances In The Study Of

ONLINE COVER In an editorial for Science Advances, Dr. Thomas Lovejoy heralds a feat of data gathering and analysis: the first official report of the International Platform on Biodiversity and Ecosystem Services (IPBES). This comprehensive assessment of the world's ecosystems is bleak. Once healthy biological communities that provided critical services to humans are greatly threatened.

During the European Middle Ages, the opening of long-distance Asian trade routes introduced exotic goods, including ultramarine, a brilliant blue pigment produced from lapis lazuli stone mined only in Afghanistan. Rare and as expensive as gold, this pigment transformed the European color palette, but little is known about its early trade or use.

Medieval women's early involvement in manuscript ...

Survey respondents report the rapid adoption of AI and expect only a minimal effect on head count. Yet few companies have in place the foundational building blocks that enable AI to generate value at scale. To take advantage of AI's enormous potential, the results confirm, most organizations have ...

Adoption of AI advances, but foundational barriers remain ...

If new medical treatments could slow the aging process and allow people to live to age 120 and beyond, would you want to? Most Americans say "no" - they would not want a radically extended life span. But roughly two-thirds think that most other people would.

The history of medicine shows how societies have changed in their approach to illness and disease from ancient times to the present. Early medical traditions include those of Babylon, China, Egypt and India. The Indians introduced the concepts of medical diagnosis, prognosis, and advanced medical ethics. The Hippocratic Oath was written in ancient Greece in the 5th century BCE, and is a direct ...
