### **How To Share Screen On**

This feature is great if you want to take notes in a window that isn't being shared. To do this: Click the arrow to expand the broadcast button. Select 'share window'. You'll see an outline will appear around each window as you hover over them. Select the window you want to share by clicking on it.

### **HOW TO SHARE YOUR COMPUTER SCREEN - join.me**

If you're connected to the network via Wi-Fi, it's your Wi-Fi card. If you're on an Ethernet connection, choose that. 3. Click the Start Server button. 4. Tell your viewers to go to the URL from the URL box. As long as they are on the same network as you, viewers should be able to see the screen cast at that address in their browsers.

### **How to Share Your Screen in Windows (With or Without Internet)**

Tap Share in the meeting controls. Tap Screen. Tap Start Now. The screen share will start and Zoom will minimize into the background. You can now chose the app that you would like to share. At the bottom of your screen, you will have the option to open the annotation tools or stop the share.

### **How Do I Share My Screen? - Zoom Help Center**

Sharing your PC screen with Android users Like the iOS users, attendees on Android devices have less screen space, so the same advice applies. Share individual applications rather than your whole PC screen and make sure they know to zoom in with touch controls.

### **How to Share Your Screen on a Windows PC | GoToMeeting**

Screen sharing means displaying the content from a mobile device screen (like a phone, tablet or laptop) on a larger device screen (like a TV or a projector screen). You may want to screen share just so that you yourself can see an enlarged view of your screen. For instance, this may come in handy for playing mobile games, or looking at movies ...
