

Maple Mathematical Software

Maple Mathematical Software

Maplesoft™, a subsidiary of Cybernet Systems Co. Ltd. in Japan, is the leading provider of high-performance software tools for engineering, science, and mathematics. Its product suite reflects the philosophy that given great tools, people can do great things. Learn more about Maplesoft.

Maplesoft - Software for Mathematics, Online Learning ...

Maple is a symbolic and numeric computing environment, and is also a multi-paradigm programming language.. Developed by Maplesoft, Maple also covers other aspects of technical computing, including visualization, data analysis, matrix computation, and connectivity.. A toolbox, MapleSim, adds functionality for multidomain physical modeling and code generation.

Maple (software) - Wikipedia

Maple is powerful, easy to use math software that can improve your grades, save you time and money, and increase your confidence. In fact, Maple may very well be the most powerful piece of software you will ever use. Maple is used in robotics, aerospace, medical research, green energy projects, consumer electronics, and a whole lot more.

Maple Student Edition: Math Software for Students - Maplesoft

Maple Math software from Maplesoft is available through a campus license for faculty and classroom use, and available for students at a discount. ... Maple combines a math engine with an interface that makes it easy to analyze, explore, visualize, and solve mathematical problems. Faculty and Staff. Pricing. \$150 per year.
