

Philosophy Of Educational Administration

Philosophy Of Educational Administration

Educational administration is a discipline within the study of education that examines the administrative theory and practice of education in general and educational institutions and educators in particular activities. The field ideally distinguishes itself from administration and management through its adherence to guiding principles of educational philosophy.

Educational perennialism is a normative educational philosophy. Perennialists believe that one should teach the things that are of everlasting pertinence to all people everywhere, and that the emphasis should be on principles, not facts. Since people are human, one should teach first about humans, rather than machines or techniques, and about liberal, rather than vocational, topics.

Educational perennialism - Wikipedia

Data has become the cornerstone of many industries, from retail, healthcare and manufacturing to all levels of government. Organizations use data to provide better services and ensure their success, but it requires ongoing work to gather, secure and utilize it properly.
